

This guide is intended to provide you with a quick reference for knowing which vinyl products may meet the needs of the most common plotter applications. Note that not all products shown below are readily available at each Glantz branch location. The "Series Numbers" shown by brand are not necessarily the only solutions available by each supplier. Please call your local Glantz branch for assistance in selecting which vinyl product is right for you.

## CALENDERED OPAQUE

General purpose signs and graphics; moderate to good exterior durability. Intended for flat, smooth opaque application surfaces.

	Typical Rating*	ORACAL	3M	GERBER	ARLON	AVERY	MACTAC
